Program Description

This one-year foundation program prepares students to pursue many careers in the pharmaceutical industry. This program prepares students to work in both retail and institutional pharmacies.

The program introduces students to community and institutional pharmacy procedures, basic human anatomy, physiology, pathophysiology, pharmacology and medical terminology.

Students who enroll in the program will be equipped with the training and knowledge they need to become competitive applicants in the health and pharmaceutical industries in Canada.

What can I do with a Pharmacy Assistant Certificate?

Graduates of this program will have acquired the skills that qualifies them to be employed in a variety of health care settings, such as hospitals, long-term care facilities and community pharmacies.

At Canadian Imperial College we are in the business of *opening possibilities* and creating opportunities.
